Drone Alliance Europe Welcomes New Supporter Member EuroUSC Italia

**Membership Growth Strengthens Alliance's Leadership as it Works to Ensure
Continued Growth of European Commercial Drone Market**

BRUSSELS – 13 May 2020 – [Drone Alliance Europe](#) (DAE) is pleased to announce that [EuroUSC Italia](#) has joined the Alliance as a Supporter Member. EuroUSC Italia joins the Alliance as the European Commission considers the European Union Aviation Safety Agency (EASA) [U-space Opinion](#) and draft [Implementing Regulation](#) and EASA continues to move forward drone rulemaking and guidance materials. DAE recently shared its perspective with the Commission in comments that closely align with its [U-space Whitepaper 2.0](#).

Established in Rome in 2014, EuroUSC Italia is a consultancy company providing services in the drone market and broader aviation safety and regulatory compliance to manufacturers, operators, ANSPs, insurers, and authorities. Through its involvement in regulatory and international standardization bodies, the company is at the forefront of the industry's latest developments.

"Drone Alliance Europe is pleased to welcome EuroUSC Italia to its membership. While much of the world's attention is rightfully focused on responding to the COVID-19 pandemic, it is also important to continue to work towards a robust regulatory framework for the European commercial drone market that will support economic recovery. This includes moving ahead with the U-space Implementing Regulation and DAE looks forward to leveraging EuroUSC Italia's expertise as part of its continued advocacy," DAE Executive Director Christoph Raab stated.

Marco Ducci, CEO of EuroUSC Italia added: "We are highly honoured to have been accepted as Supporter Member by DAE to which we will offer our contribution, to better represent our segment of industry, including Qualified Entities, in front of the EU Institutions and Agencies".
