Drone Alliance Europe Welcomes New Members

Alliance Growth Strengthens Call for Forward-Leaning, Pan-European Drone Regulation on Heels of Amsterdam High Level Conference on Drones

AMSTERDAM – 6 December 2018 – Drone Alliance Europe is pleased to formally announce that [AirMap](#), [Unifyly](#), and [Unisphere](#) have joined the Alliance as Associate Members. The Alliance is also pleased to announce that [Wing](#) has been elevated to the board of directors. Growth in Alliance membership coincides with the Amsterdam High Level on Conference on Drones, during which the European Commission, European Aviation Safety Agency (EASA), and national authorities together adopted the [Amsterdam Declaration](#) to strengthen and expand efforts to advance safe, secure, and green drone operations in Europe.

“New membership strengthens the Alliance’s leadership as the European Commission and EASA work to finalise the Implementing and Delegated Regulations and undertake additional initiatives to further integrate drones in the European airspace. The Alliance is pleased to have AirMap, Unifyly, Unisphere, and Wing bolster its call for harmonised implementation of drone regulations across all Member States to ensure growth of the European commercial drone market,” DAE Executive Director Christoph Raab stated.
